1. Bước 1: Vào Plugin & Products -> Manage Products -> Add/Import Products

The screenshot shows the vBulletin Admin Control Panel. On the left is a sidebar menu with 'Plugins & Products' expanded and 'Manage Products' highlighted. The main content area is titled 'Plugin & Products System' and contains a table of installed products. Below the table, the link '[Add/Import Product]' is highlighted in yellow and underlined with a red line.

Installed Products			
Title	Version	Description	Controls
vBulletin	4.1.11		
Skimlinks Plugin	4.1.11	Official Skimlinks plugin for vBulletin	Edit <input type="button" value="Go"/>
vBulletin Blog	4.1.11	Personal web log, integrated with vBulletin.	Edit <input type="button" value="Go"/>
vBulletin CMS	4.1.11	Content Management System	Edit <input type="button" value="Go"/>
Your Payment	1.0.0	Payment online	Edit <input type="button" value="Go"/>

[Add/Import Product]

SQL Queries (62) | \$RCSfile\$ - \$Revision: 58539 \$ | [Explain](#)

Memory Usage: 12,914 KiB

The screenshot shows the 'Import Product' and 'Add New Product' forms in the vBulletin Admin Control Panel. A red arrow labeled '1' points to the 'Choose File' button in the 'Import Product' section. A red arrow labeled '2' points to the 'Import' button in the same section. The 'Add New Product' section below it contains input fields for Product ID, Title, Version, and Description.

Import Product

EITHER upload the XML file from your computer No file chosen

OR import the XML file from your server

Allow Overwrite
If you wish to upgrade a product, you must set this to yes. ☐ Yes ☒ No

Add New Product

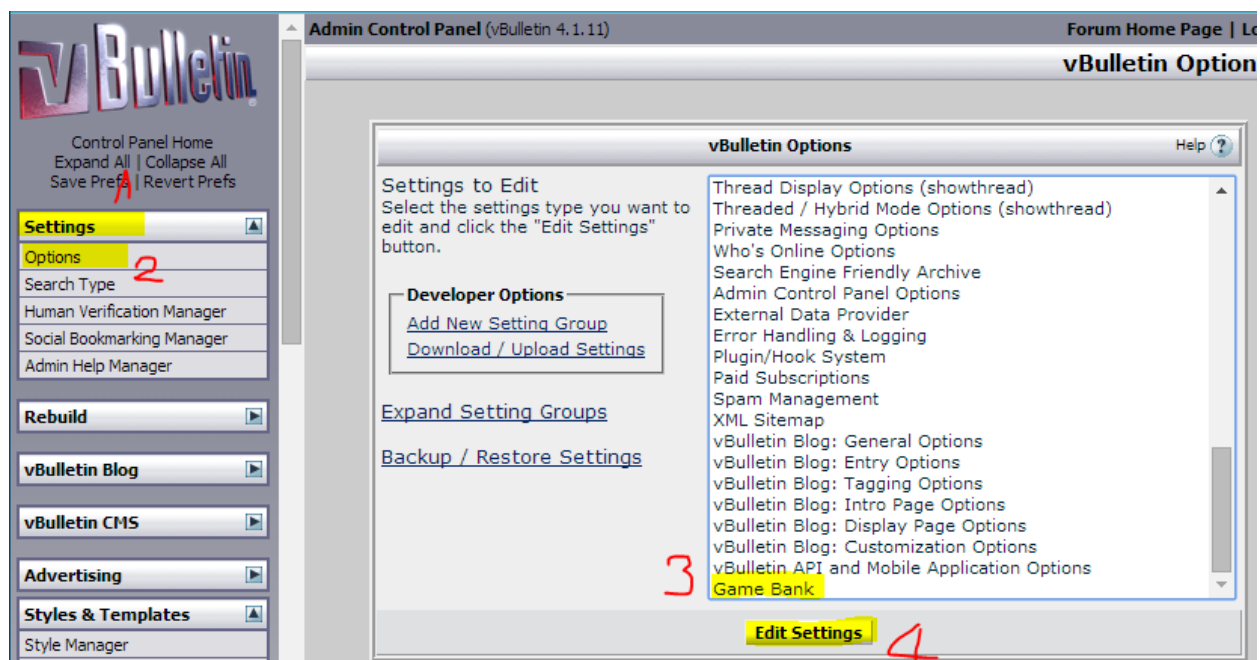

Product ID

Title

Version

Description

- Bước 2: Chọn file **product-game_bank_update.xml** để import vào Products trong thư mục Folder giải nén "includes/ **product-game_bank_update.xml**"
- Bước 3: Sau khi cài đặt thành công product, vào mục **Settings -> Options**, Tìm mục Game Bank click chuột để vào **setting**

Lưu ý các thông số bên dưới có thể thay đổi, sau khi thay đổi xong thì nhớ 1 thông số đó là

Set Column ...

Game Bank
[Edit]
[Delete]
[Add Setting]
Help ?

Enable Game Bank Payment
[Edit]
[Delete]

Set option to **Yes** to enable Game Bank Payment ☒ Yes ☐ No

Warning default add to bottom next to **What's Going On?** form

Show top link
[Edit]
[Delete]

Insert link Game Bank payment to top link ☐ Yes ☒ No

Enable Widget
[Edit]
[Delete]

Enable widget to content: ☒ Yes ☐ No

Warning!!! Go to vBulletin CMS -> Layout Manager and add widget to content

Your Account ID
[Edit]
[Delete]

Type your **Account ID** on http://gamebank.vn:

Set Column
[Edit]
[Delete]

Type column name of table user in database to save user price:

Wanning!!! please insert 1 column in to table **user** form database

Name of Menu
[Edit]
[Delete]

Set name of tab in menu when show it....

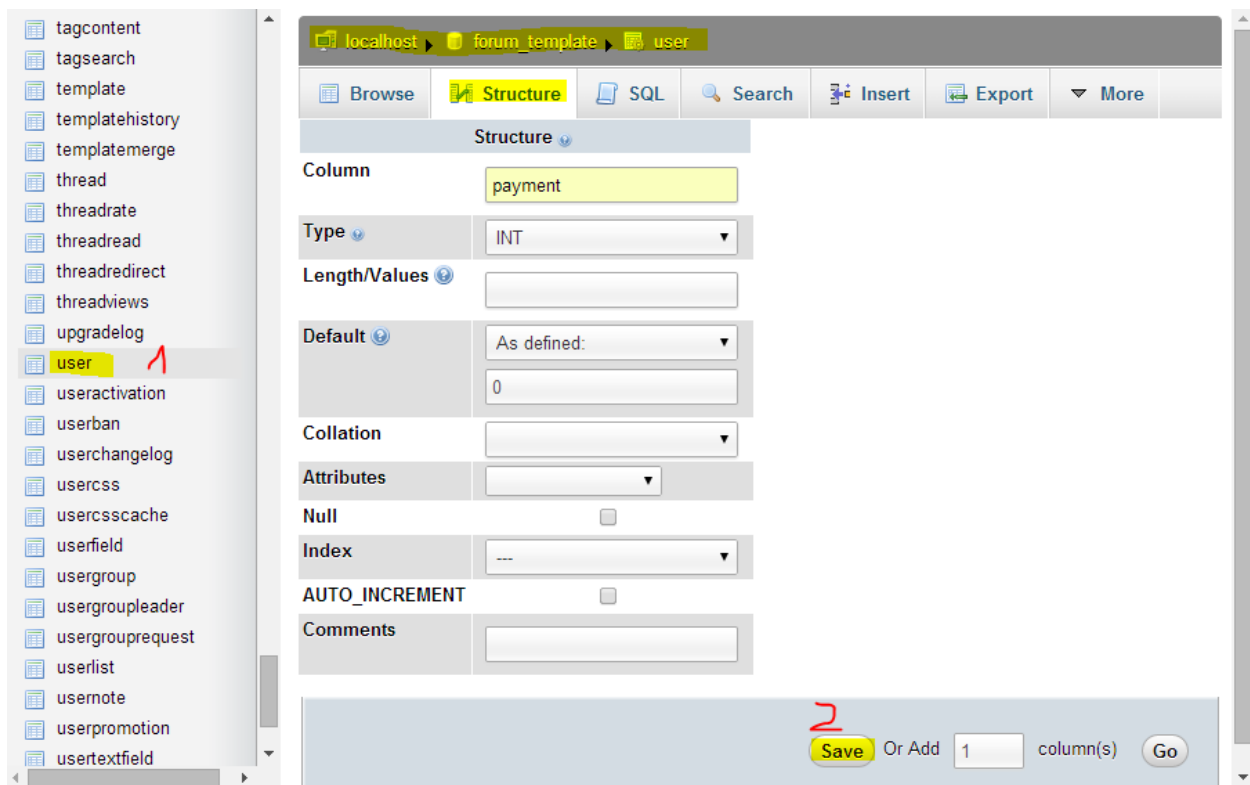

Edited value to enable show in menu navbar

Save

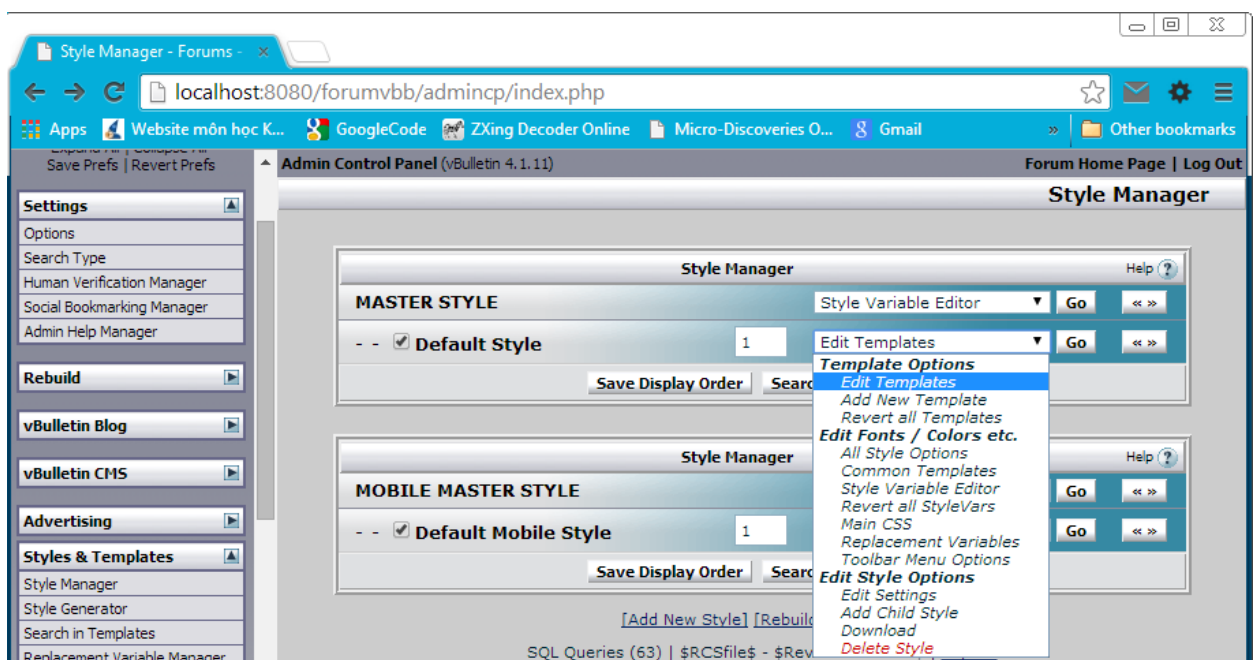

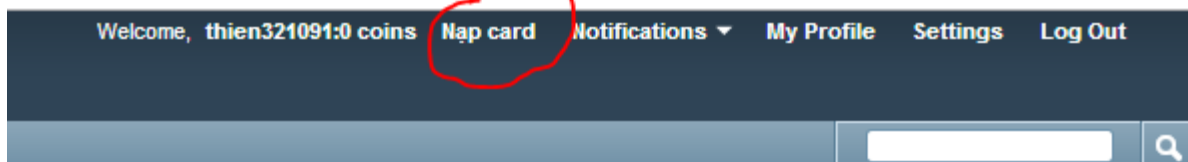

Reset

4. Bước 4: Nếu trong database đã có cột payment rồi thì không cần làm bước tiếp theo
 Vào **MySql Admin** → vào **Database** → Vào **Table User** → Insert thêm 1 cột tên **payment**, Nếu có sẵn 1 cột khác có thể sửa chữ **payment** thành tên cột đó

Xem hình bên dưới

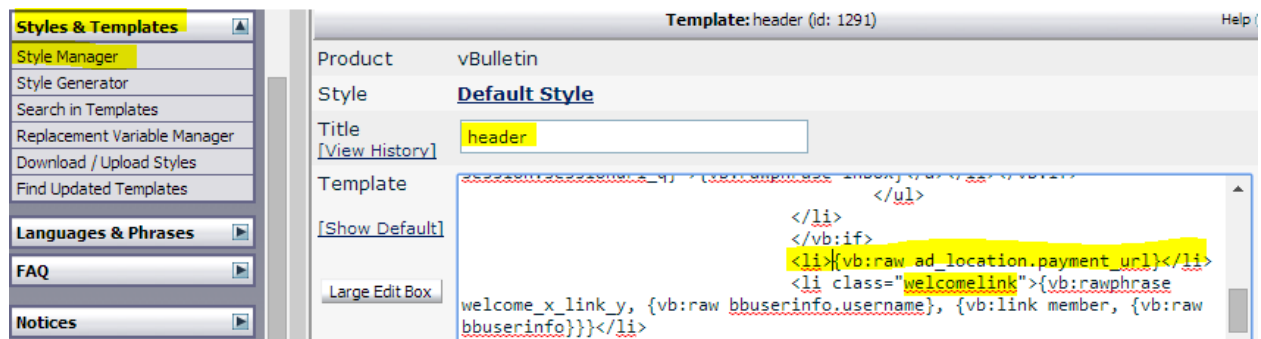

5. Bước 5: Để thêm **menu lên mục welcome user** vui lòng vào **Style & Templates -> Edit Templates** như hình bên dưới

Chọn template Header insert dòng

`{vb:raw ad_location.payment_url}` vào template

lưu ý nhớ tìm dòng **class="welcomelink"**

Bước cuối: Copy pate file **checkout.php** ra ngoài thư mục gốc của website
